

2nd newsletter of 2011

Fellow ATV Riders,
The trails have opened but still pretty muddy in some spots is what I've heard.

Please ride with care and avoid making ruts and spin outs if at all possible.

The trails are being worked on whenever possible so be careful of equipment on the trails.

Drive defensive at all times.

Again and again, respect the land, stay on marked trails, and be safe out there.

Oh, by the way, support your local ATV Clubs by becoming a member!!!

Membership forms are available online at our website:
